

Portland Harbor Superfund Site: Information Management and Institutional Control Plans

An Invitation to Advanced Data Users to Participate in a Needs Assessment

Purpose

Work to clean up the Portland Harbor Superfund Site will generate considerable amounts of data in addition to existing datasets. Under an agreement with EPA, the City of Portland and the State of Oregon through the Department of State Lands are developing a plan to centralize and make available to interested parties site-specific and harbor-wide cleanup data and information. To assist in this effort, the City and State are reaching out to stakeholders, including parties who may be more familiar with the technical aspects of Portland Harbor data, to participate in a needs assessment.

The purpose of the needs assessment is to (1) gather input on ways to ensure that information and data are managed and presented in a format that is consistent and useful and (2) gather input on how best to describe and document, track, and communicate the institutional controls (ICs) that will be a part of the Portland Harbor cleanup.

Do you...?

Have experience using or developing database systems?

Anticipate in-depth involvement with Portland Harbor or using Portland Harbor cleanup data for technical analyses in the future?

If so, you may be interested in participating in a needs assessment for an Advanced Data Users

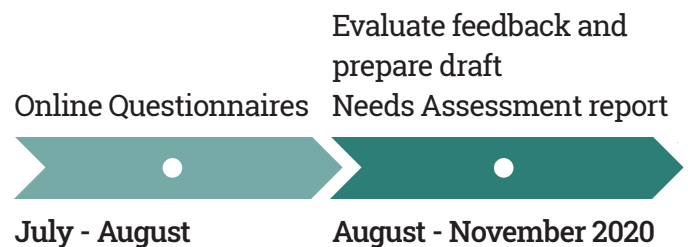

focus group. Input from this group is technical, focusing on data management tools, analytics, and standardization for the information management system.

Why we need your input

Advanced data users can influence the format and structure for the information management plan.

We want to hear from you!

As part of the Needs Assessment process, you are invited to share your input. Input will be gathered and evaluated as follows:

An invitation email will be sent to you to provide more details on dates. For further information about the advanced data user outreach or to be included in the needs assessment, please contact Erik Strandhagen at 503-436-6800 or eriks@cascadiaassociates.com.

For further information about the City and State agreement with EPA, please contact Dawn Sanders, City of Portland, 503-823-7263 or dawn.sanders@portlandoregon.gov.

The Bureau of Environmental Services is committed to providing meaningful access. To request translation, interpretation, modifications, accommodations, or other auxiliary aids, please call 503-823-7740 or Oregon Relay Service 711.
